Primary Examiner, Art Unit 2827

1. The Information Disclosure Statement submitted by Applicant on July 31, 2008 has been received and partially considered.
2. Claims 151-209 are allowed.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the Abstract, lines 11-19, the words "The present invention ... up to 40 bits wide" have been deleted.

4. The following is an examiner's statement of reasons for allowance:

The closest prior art to the present invention is Tam et al. (U.S. Patent No. 4,825,416). Tam et al. discloses a memory device having an initialization register coupled to a memory array. Tam et al. fails to show or suggest the combination of a register to store a value, a plurality of input receivers to sample operation codes synchronously with an external clock signal, wherein a first operation code instructs the memory device to store the value in the register, a second operation code instructs the memory device to perform a write operation, wherein in response to the second operation code, the memory device samples write data at a time determined using the value stored in the register (claims 151-170, 178-179); or the steps of adjusting a variable delay based on a comparison between a delayed clock signal and a first external clock signal, storing a value in a register, receiving a block size that indicates an amount of data to be sampled during a write operation (claims 171-177, 180-194); or

a plurality of input receivers to sample input signals to produce sets of bits corresponding to control information, wherein a first set of bits instructs the memory device to store a value in a register, and wherein a second set of bits instructs the memory device to perform a write operation during which the memory device samples an amount of write data at a time determined using the value stored in the register (claims 195-209)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tan T. Nguyen whose telephone number is (571) 272-1789. The examiner can normally be reached on Monday to Friday from 07:00 AM to 03:00 PM.
